

"A fair result can be obtained only by fully stating and balancing the facts and arguments on both sides of each question."

Charles Darwin,
The Origin of Species

"We are skeptical of claims for the ability of random mutation and natural selection to account for the complexity of life. Careful examination of the evidence for Darwinian theory should be encouraged."

100+ Scientists
www.ReviewEvolution.com

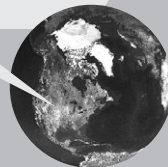

"Where topics are taught that may generate controversy (such as biological evolution), the curriculum should help students to understand the full range of scientific views that exist, why such topics may generate controversy, and how scientific discoveries can profoundly affect society."

No Child Left Behind Act of 2001,
Conference Report

"Biology teachers should teach Darwin's theory of evolution, but also the scientific evidence against it."

71% of Americans
(14% Not Sure)
August 2001, Zogby Poll
